Support Immunization Health By Leveraging MCIR Resources

Ryan de la Rambelje, MBA-SCM, CPM, Section Manager, Division of Immunization
Kim Scott, MALDT, BS, Unit Manager, Communication, Education & Training
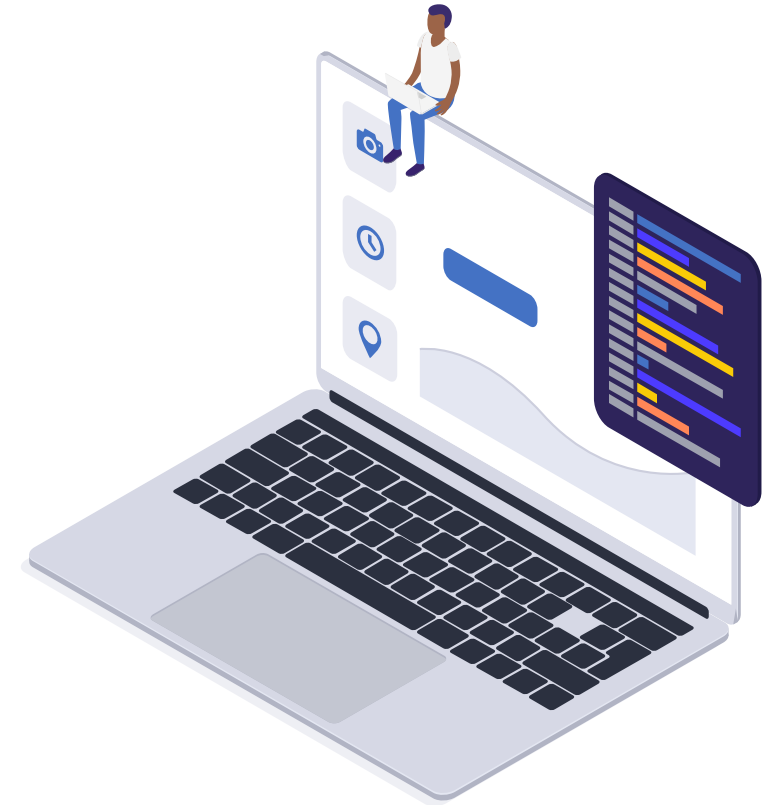

MCIR

Agenda

Complete and Accurate Immunization Records
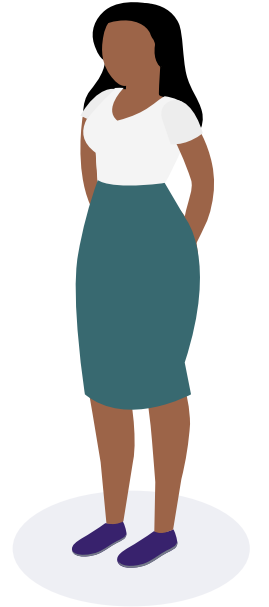

Get the Most Out of MCIR

Improve Clinical Decision, Vaccine Resource, and Outbreak Response Support

Improving Patient Immunization Records

Reduce Duplicate or Fragmented Resident Records

1. Search for a person in the MCIR before creating a new record
   - Enter the name from your EMR in the MCIR Alias Field

2. Use legal first name and last name
   - Beware of nicknames and unique spelling

MCIR

Improving Patient Immunization Records

Reduce Duplicate or Fragmented Resident Records

3. Use unique MCIR ID numbers to look up records
   - MCIR IDs are listed on printed records and in MCIR

4. Patient record awareness can help record accuracy
   - Encourage patients to check their records on the MI Immunization Public Access Portal

Record Completeness, You and Your Patient

Interstate and Federal Agency Immunization Information

- Immunization (IZ) Gateway: A data hub for inter-state and federal agency immunization records sharing

- Connectivity is in progress with Illinois

- VHA (Veterans Health Affairs) connectivity starting in October

- Next partners are Kentucky and Indiana

CDC IZ Gateway Info:
https://www.cdc.gov/vaccines/programs/iis/iz-gateway/information-sheet.html

Immunization Status and Outbreak Response

Accurate Records Enable Better and Faster Vaccination and Outbreak Support
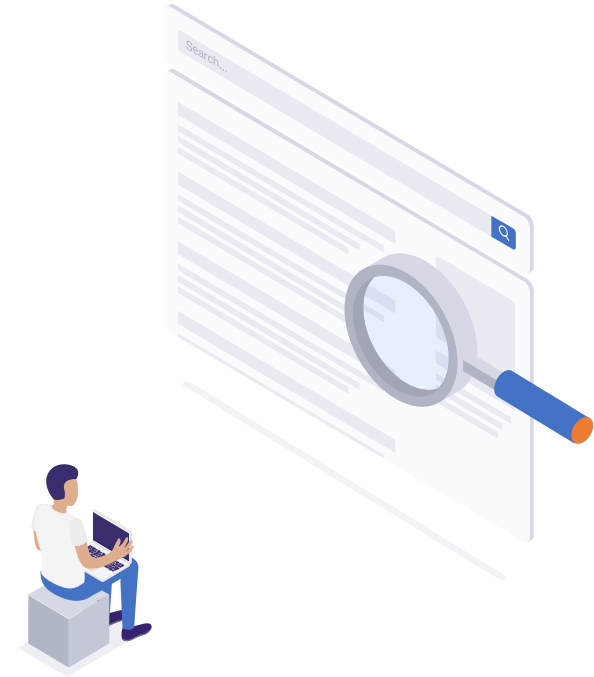

- Vaccine supplies
- Preventative action
- Training and assistance
- Communication with public

Patient Demographics

Demographics are Critical to Immunization

- Accurate data helps assure health equity and inclusive emergency response

- Informs outreach, whom to connect with and how to best reach them

- Drives better vaccine forecasts based on risk and other health factors

Supporting Better Coverage

Healthcare Provider Strategies

- **Immunization Quality Improvement Reports** in the MCIR

- **Utilize MCIR clinical decision support** and vaccine forecasting feature on records

Supporting Better Coverage

Health Provider Strategies

- **Reminder/Recall** functionality to support patient care

- Leverage MCIR.org, MCIR Helpdesk, and MCIR **Regional resources** for training and immunization news
